Notice Regarding Property Owner Placing Items on City Easements

The City of Cuba City or the City's electric, water and sewer utilities may have a utility easement across and upon land owned by you. This easement allows our utility crews to install, maintain, upgrade and make repairs on any utility lines or services in the easement.

This is to inform you that if there are trees, bushes, structures or other objects on the easement it may in the future be necessary to remove or damage these things when servicing the utility lines or services in the easement. We hope this does not happen in the future, but if it does we will not be financially responsible for such damages. We will, however, pursuant to the terms of the easement we hold, restore the ground as best we can to the condition it was prior to our necessary work. This would not mean, however, the restoration of trees, bushes or even structures in the easement.

Please keep this in mind when planning future property improvements.

I have read and understand the above statement:

Date: _____

Thank you,
